

Hey there, you...

Experienced, mission-driven Co-Founder/CTO (m/f)

what makes you truly #happy?

Help build the next impact unicorn: Digital mentor for the pursuit of happiness

zentor is a digital mentor delivering science-based inspiration for the pursuit of happiness, and helping turn ideas into projects to realize them with like-minded people.

We envision a society in which every life is a continuous exploration of fulfilling things – with changes seen as opportunities. We are a team of fun professionals working together on something meaningful: Foster individual happiness and build a more positive society.

Our MVP is live at www.zentor.de with great feedback from customers, but we need to take zentor to the next level. For this, we are looking for an amazing and seasoned CTO / technical Co-Founder, who shares our mission and is excited about doing the right thing.

Key challenges

- Drive and execute all product and tech development from MVP to impact unicorn
- Develop the data model, software/cloud architecture, platform strategy and build the ML/AI solution for an evidence-driven “formula for happiness”
- Refine and expand the user journey to a world-class UX on multiple frontends and rigorously solve for Product-Market Fit and customer engagement
- Co-develop our long-term strategy and vision

Profile

- Several years of experience as a full stack web/generalist developer (preferably Vue.js, Firebase/store, etc.), coupled with experience in AI/ML and sw architecture
- A passion for great UX, ideally in B2C business; experience in Voice UIs is a plus
- Experience and ideally a network in a start-up or digital businesses world
- Hands-on, get-sh**-done approach, while enjoying the ride in a fun team

What we offer

- A great team with decades of experience & a solid start-up network in UK & DE
- A chance to truly matter and shape the next impact unicorn
- The shared passion for a meaningful cause and a long-term perspective
- Equity
- Fun & Purpose (we are bootstrapping, hence this has to be your initial salary...)

That's you? Let's chat: valentin@zentor.me
